

FLAT STANLEY

TOWN PLANNING

Imagine your own flat town, and draw it in the box.

What kind of buildings would there be? What does every town need? Some ideas would be a school, hospital, shops, libraries and banks. What about a swimming pool and a park? How would people get around? Is there a car park? Are there bike lanes and bus stops? When you have finished why not create some flat people to live there?

A large, empty rectangular box with a thin black border, intended for a child to draw their own town plan.
