

Add and subtract

- Choose a pair of numbers from the grid.
- Find their total.
- Write the addition sentence.
- Cross out your chosen numbers in the grid.
- Do this nine more times.

45	36	70	90	80	72	15	63	40	52
21	37	69	43	60	20	28	63	44	30

■ Now write the answers to these subtraction sentences.

1. $90 - 30 = \square$
2. $45 - \square = 20$
3. $\square - 30 = 42$
4. $60 - \square = 19$
5. $80 - 36 = \square$
6. $\square - 37 = 56$

■ Decide how to complete these number sentences. Make each one different.

1. $\square + \square = \square$
2. $\square + \square = \square$
3. $\square + \square = \square$
4. $\square - \square = \square$
5. $\square - \square = \square$
6. $\square - \square = \square$
