

Design a new form of transport

Pig and the Evil chickens create a brand new type of transport in *The unbelievable Top Secret Diary of Pig*, the Trocket is a cross between a tractor and a rocket! can you come up with a brand new form of transport?

THINGS TO CONSIDER:

- * Where would it go?
- * How many people or pigs can get into it?
- * How would it move? For example would it fly, roll or climb?
- * What would it be called?
- * What would you use it for?

Use these lines to explain a little bit about your new mode of transport.
