

CLOCKS

This is a flexible tool that gives users the choice to display either one or two analogue or digital clocks or calendars per screen. The options menu allows the times on any clock to be randomised to the nearest minute, five minutes, 15 minutes, half-hour or hour.

Show numbers/minutes

Show or hide numbers or minute markers.

Reset

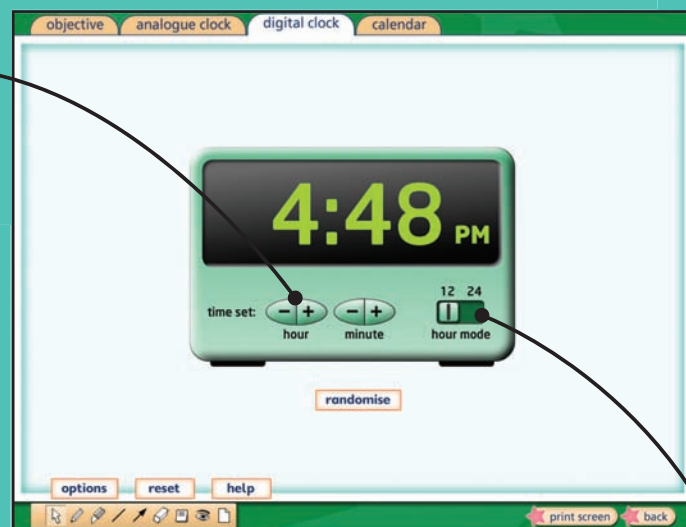

Click to reset clock times.

Link hands

Select to drag both hands in synchronicity.

Time set

Adjust hours and minutes separately.

Hour mode

Display 12- or 24-hour times.

Tool functions

- 'Randomise' creates a random time on each clock
- Numbers or minute markers may be hidden
- Analogue clock hands may be moved to any time
- Digital time may be displayed in 12- or 24-hour clock mode
