

FRACTION EQUIVALENTS

This tool acts like a machine that creates equivalent fractions. The core function of the tool is to match fraction equivalents with the target fraction, helping children to visualise fractions in different formats.

'Up' and 'down' arrows

Click to manipulate the values up or down.

Go

Click to create a random target value.

Options

Select the target and equivalent format - fraction, shape, decimal or percentage.

Tool functions

- Options to change the target and fraction equivalent
- Create a random target value
- Click the 'up' and 'down' arrows to increase or decrease the value of the equivalent fraction, shape, decimal or percentage
