

0 1 The reactivity series compares how reactive different metals are.

0 1. **1** Draw lines linking the metal to its reactivity with water.

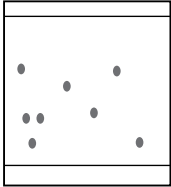

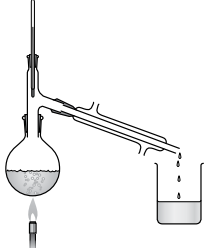

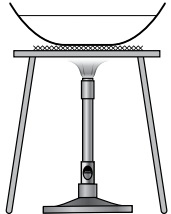

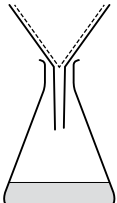

Zinc	No reaction, not even with steam.
Lead	Fizzing with liquid water.
Silver	Slow reaction with liquid water.
Sodium	Slight reaction with steam.

[4 marks]

0 2 There are different ways of separating substances.

0 2. **1** Draw lines linking the diagram of a separation technique to what it is.
Draw **one** line per diagram.
